Product governance. We will receive the target market of each product and distribute within it (art. 185 of Royal Decree-law 3/2020).

How we recommend. Every recommendation is in writing, with the rule or agreement it comes from; what the company pays us for the review does not depend on whether it buys, nor from whom.

What we propose and how

Staff insurance	Group health and life, agreement insurance (accident), liability (general, employer and directors), sick leave and corporate pension insurance
Also	Flexible pay and employee legal protection (employment law advice)
Channels	Direct sale (online and field) or the company's payroll adviser

Documented risk and direct sales to the company

The agreement, read in its bulletin

Many collective agreements set a death or disability sum for the staff, which agreement insurance covers; that sum will come with the bulletin article that sets it.

The payroll adviser, as referrer

The company will come on its own or through the payroll adviser that already runs its payroll and staff.

Staff from payroll, on the SeguroLaboral platform

The SeguroLaboral platform will load staff once from payroll, with minimal data under a processing agreement.

From the company to the policy, who does what

How it will work, with each insurer's terms letter.

CLIENT Company with staff Its agreement requires it to cover its staff, or it wants to offer health, life or the rest of their insurance.	INTRODUCES Payroll adviser If the company comes through it, it introduces the company with a circular, as a referrer; it gives no insurance advice.	ADVISES AND INTERMEDIATES LABORAL STACK DIGITAL, S.L. Will read agreement and policies, recommend in writing, handle the process and assist with claims.	UNDERWRITES AND ISSUES Insurance company Prices, underwrites, issues and collects the premium in its own circuit.
--	--	---	--

Policy purchase: opens with each insurer's terms letter.
